

TO EACH HIS OWN.

Door to door collection arrives in Flero. We make a difference.

Presentation

Dear Citizens,

from **3 November 2014 door to door waste collection will begin** in our municipality. The rubbish skips will be replaced by door to door collection that will concern both recyclable materials (paper, plastic, glass and tins, organic, vegetable) and unsorted non recyclable waste (residual dry material).

The goal is to **significantly increase sorted waste collection**.

Today in our municipality generates almost **6,000 tonnes of waste per year** – about 700 kg/year per capita – and sorted waste collection is **only at 35**%. With the new door to door collection system the Municipality of Flero will also be able to achieve **at least 65**% **sorted collection as soon as 2015**, significantly increasing the amount of waste launched for recovery. This translates into a clear and immediate advantage for the environment and a lower cost to the community.

Changing habits undoubtedly means making a personal effort and we are aware of this. Changing our approach to waste means distinguishing day by day what can no longer be of further use (and is therefore destined for incineration or the dump) from that material which must be recovered and launched into a new life. Precisely to ensure our citizens that the efforts they put forth will correspond to an actual **value and re-utilisation** of recyclable materials, this administration has chosen to keep its **paper**, **plastic**, **glass and metal** (from both door to door collection and the municipal ecological island) in order to establish year by year which market will be the most appropriate recipient of the materials collected.

With the launch of this new service, for those who have doubts or queries concerning the new door to door system, the **Ecological Sector of the municipal Technical Office** is open to the public, as well as the **free phone number** provided by Aprica.

We are confident that with the patience and collaboration of all we will be able to overcome those inevitable small problems and inconveniences that may arise during the launching phase of the new waste management system, promptly achieving the expected results.

Councillor for Ecology Ms Laura Rossetti

Jeen Gront

Waste collection schedule

*Saturday collection will be only for users who generate large quantities (bars, restaurants, supermarkets). **Costs apply.

The waste must be placed on public streets in an orderly way and in a manner that does not hinder pedestrian and vehicle traffic **between the hours of 5 PM and 7 PM on the collection day. Collection will take place from 7 PM.**

The containers must be retrieved by 9 AM on the next day.

Putting out waste at times or on days other than those scheduled and on containers other than those authorised is prohibited. In the event of non compliant containers, collection will not be carried out and the containers will be marked with a specific adhesive sticker. Furthermore, littering will be sanctioned in accordance with the prevailing regulation. After launching the door to door service, the grey bags and yellow bags and any other containers will be distributed from the **municipal eco-window**.

The following are the users' responsibility:

- cleaning the containers;
- replacing worn, lost, stolen or broken containers.

Important: strict observance of the instructions for correct waste sorting allows us to achieve high quality recyclable material levels, such to guarantee the best placement on the market of the various fractions and therefore benefit the environment and the community wallet.

Organic waste goes in the brown container

Kitchen waste should be placed in the **biodegradable bags provided annually**. For collection the bags must be placed only in the specific **bins to be put out which were delivered with the initial kit**. A special ventilated plastic container is also delivered, also brown, to be used in the home as an under-the-sink waste bin. Non domestic users may alternatively use the 120 and 240 litre brown wheeled containers provided on request. No other containers are to be used at the user's discretion.

What to place in it:

raw or cooked kitchen scraps or leftovers, vegetable and fruit skins and scraps, meat and fish scraps, bones and fishbones, bread, rice, fruit seeds, shells (egg, walnut, hazelnut), tea and camomile bags, coffee grounds, corks, used paper napkins and tissues, used paper, dirty pizza cartons.

What NOT to place in it:

cuttings and prunings, gardening waste (grass, leaves, plant prunings), animal excrement, food packaging paper (oiled, laminated or aluminium coated), cigarette butts, liquids, oil, chemical products, nappies and sanitary napkins,

rags, wood, ash (fireplace and barbecue).

Paper

Paper and cardboard should be placed in paper bags or cardboard boxes or in bound parcels. Non domestic users may alternatively use the and litre blue wheeled containers provided on request. No other containers are to be used at the user's discretion.

What to place in it:

newspapers, notebooks and magazines (without adhesive, metal or plastic parts), Tetra Pak containers (milk, fruit juices and other beverages), paper bags, cardboard food trays and boxes, cardboard packaging for toys and garments, pizza boxes without food residue.

What NOT to place in it:

food soiled paper, chemical fax or copier paper, fiscal receipts, baking paper, laminated cards, plastic wrap, pizza boxes with food residue, plastic bags.

Glass and metals go in the green container

Glass and metals should be placed in the specific green containers delivered with the initial kit. Non domestic users may alternatively use the 120 and 240 litre green wheeled containers provided on request. No other containers are to be used at the user's discretion.

What to place in it:

glass bottles, glasses, jars, vases and carafes, trays and containers for preserving and freezing foods, tins and tubes for foods, tins for beverages and liquids, aluminium foil, cans, metal clothes hangers, metal caps, spray bottles not labelled T and/or F^* , coffee pots.

What NOT to place in it:

ceramic plates and cups, incandescent and energy saving light bulbs, neon light bulbs, mirrors, glass-ceramic (like Pyrex) or ceramic containers, glasses and objects in crystal, plastic bags, spray bottles labelled T and/or F^* .

^{*}hazardous, toxic, flammable or corrosive.

Plastic goes in the yellow bag

Plastic packaging should be placed exclusively in the yellow bags provided annually. No other containers are to be used at the user's discretion.

What to place in it:

mineral water, milk, beverage and oil bottles, detergent, soap and cosmetic bottles and dispensers, containers for sauces, creams, yoghurt and ice cream, food trays (in PET, Styrofoam and polypropylene), blisters and shaped packages, bags for pasta, crisps, sweets, vegetables and frozen foods (even those coated with aluminium foil internally), fruit and vegetable nets, transparent film, shopping bags and sacks, bags for gardening products, detergents and pet food, flower and plant pots used for sale and transportation, packing materials (film, bubble wrap, Styrofoam peanuts), disposable plates and cups (without food residue), completely plastic clothes hangers, plastic fruit and vegetable containers.

What NOT to place in it:

toys, gym shoes, plastic slippers, car mats, furnishings and products in plastic, DVDs, CDs, music and video cassette tapes, photographs and photographic film, pens, umbrellas, disposable razors, jerry cans, buckets.

Important: the containers for Tetra Pak liquids should not be placed in the yellow bags but should be disposed of with paper products.

REMEMBER: empty, rinse and/or clean and crush the containers.

Unsorted waste goes in the grey container

All the waste that cannot be recycled should be placed exclusively in the **grey bags provided annually.** No other containers are to be used at the user's discretion.

What to place in it:

dirty, oiled and sand paper, broken plates and ceramics in general (in limited quantity), non electronic plastic toys without batteries, CDs, DVDs, music and video cassettes, vacuum cleaner bags and sacks, nappies, sanitary napkins, animal excrement, bandaids, disposable razors, cigarette butts.

What NOT to place in it:

batteries, oils, medicines and hazardous materials (glues, varnishes, solvents, insecticides), energy saving and neon light bulbs, small mirrors.

Vegetable scraps

For collection of vegetable scraps from green areas (grass, leaves, pruning off-cuts) the Municipal Ecological Island is available. Also available, strictly for domestic users, is a **weekly collection service** that can be activated only **on request and costs apply**. For residents who request is, a 240 litre brown wheeled bin with a green lid can be delivered. Collection is carried out for a period of 9 months per year, from March to November.

What to place in the container:

grass clippings, cut flowers, vegetable residues and garden trimmings, tree and shrub pruning off-cuts (with maximum diameter of 5 cm and broken up in order to be able to be contained in the bin).

Bulky waste

For disposal of bulky waste, such as furniture and electrical appliances, for example, Flero residents can use a collection service **booked in advance free of charge**. The **booking** should be carried out **at least 3 days prior** to the scheduled collection date, specifying the type of waste for which collection is being requested. The waste must be placed **within the 8 hours on the street** near the requester's residence in a place where vehicles can access without hindering vehicle and pedestrian circulation. Collection is carried out **every second Saturday of the month**.

No clean out operations for basements, attics or garages will be carried out, nor will any heavy labour be carried out on private property.

Collection can be booked by telephone through the free phone number 800 437678 from Monday through Friday from 8 AM to 8 PM and Saturday from 8 AM to 3 PM.

Collection is carried out based on the following conditions:

- maximum 10 users for every scheduled service;
- maximum 3 pieces or 2 cubic metres of waste for each user.

The Municipal Ecological Island

For Flero residents the **Municipal Ecological Island on via Pirandello** is available. Access is permitted only to residents and to non domestic users with registered offices in the municipality of Flero, duly registered on the rolls.

Entry to the Ecological Island is possible strictly with the Regional Services Card for domestic users or with a specific badge delivered with the kit for non domestic users.

All waste brought must be weighed at the Ecological Island.

The following waste may be brought to the Ecological Island: bulky, paper and cardboard, glass and tins, plastic, trimmings and pruning off-cuts, wood, metallic scrap, WEEE*, lead-based batteries, depleted vegetable oils (cooking oil), depleted mineral oils (automotive oil), aggregate (small quantities), containers of products labelled T and/or F, organic waste, used clothing, neon light bulbs, monitors, expired drugs, printer cartridges, toner, tyres.

*W.E.E.E. (Waste Electrical and Electronic Equipment)

These are all electric appliances and technical products of any type and size which, in order to function, require an electrical plug or batteries. For example: refrigerators, washing machines, televisions, computers, monitors, mobile phones, video cameras, video games, MP3 players, irons, hair dryers, blenders, vacuum cleaners, etc.

W.E.E.E. can be brought by residents and non domestic users with registered office in the municipality of Flero if they are of a nature and quantity similar to those produced in a household environment

Important: if they are not disposed of correctly, W.E.E.E. are a source of serious air, water and soil pollution.

The Ecological Island: hours of operation

Monday, Wednesday and Friday	8:00 AM - 12:00 PM
Tuesday	1:00 PM - 5:00 PM
Thursday	2:00 PM - 6:00 PM
Saturday	8:00 AM - 12:00 PM and 2:00 PM - 6:00 PM
Sunday	10:00 AM - 12:00 PM
